

Request for UPMC Center for Continuing Education in the Health Sciences Credit Request

Let's Talk Webinar: Heads, Shoulders, Knees and Toes: How Pediatric Anatomy Affects Injuries

Thursday, February 24, 2022 / 12:15 pm - 1:30 pm

Julie Mansfield, CPST, Research Assistant Professor at the Injury Biomechanics Research Center, Ohio State University

Moderator: Mary Jo Clark, MD, FAAP – Children's Community Pediatrics – Mountain View, Pediatric Advisor to the PA AAP Traffic Injury Prevention Project

Learning Objectives:

- Learn about the physical development of the pediatric head, brain, spine, and lower extremities.
- Explore how these body regions are different from adults in terms of geometry, strength, and crash injury outcomes.
- Discuss how different types of child restraint systems protect children at each developmental stage.
- Review science-backed guidelines for safety advocates and medical professionals to incorporate into their education with caregivers.

I participated in the February 24th webinar:

Please complete with your legal name and the email used in your account profile for the continuing education learning portal to claim and track credit.

Name (Print Clearly) _____

Name of Practice or Organization _____
