Manufacturers Alliance for Child Passenger Safety

### How to Determine That a Child Restraint System Can Be Used Legally in the U.S.

As the popularity of online shopping increases, there have been reports of non-compliant, knock-off, fake and foreign car seats being used by families across the United States. To assist child passenger safety technicians, the Manufacturers Alliance Child Passenger Safety organization developed a handout entitled, "How to Determine Whether a Child Restraint System Can Be Used Legally in the U.S.", to assist in identifying car seats that are unsafe for use. The informational sheet highlights potential red flags, reviews mandatory label information required on car seats, and provides examples of foreign countries compliance labels. The information provided serves as a checklist to assist in identifying non-compliant car seats and lists trusted resources that can be used to select a car seat that meets Federal Motor Vehicle Safety Standard 213.

#### Potential Red Flags

If any of these boxes can be checked, additional research is required to determine if the child restraint can be used legally in the U.S.

- ☐ Unrecognized manufacturer name with a foreign physical address
- ☐ Non-U.S. telephone number
- ☐ Foreign languages on the labels that do not include English
- ☐ Incorrect grammar, spelling, or sentence structure
- ☐ Foreign Compliance Labels
- ☐ Missing U.S. mandatory information on labels and in instruction manuals

If you suspect a car seat does not meet federal safety standards, do not buy it. If you suspect a car seat might be fake, or if your seat did not come with an owner's manual and registration card:

- Keep detailed records of where, when, and how the seat was purchased;
- Call the manufacturer to verify the product's information (ex. model or serial number, date of manufacture, labels, etc.); and
- If the seat is fake, report it to [STOPfakes.gov](http://STOPfakes.gov). Submit your feed back at <https://www.stopfakes.gov/assistance>.

A complaint form can also be filed at <https://www-odi.nhtsa.dot.gov/ivoq/Complaint.cfm> or by calling the Vehicle Safety Hotline at 1-888-327-4236. Be sure to have the car seat with you as you will be asked to provide information from its label.

PA Traffic Injury Prevention Project has printed a limited quantity of the MACPS flyer for use at car seat check events and fitting stations. Flyers are available upon request. Send you requests to [aosterhuber@paaap.org](mailto:aosterhuber@paaap.org).

## National Heatstroke Prevention Day: May 1, 2021

The problem of children dying in hot cars is continuing year after year. These deaths are completely preventable tragedies. The goal of the National Heatstroke Prevention Day is to raise public awareness and to remind parents to always "Look Before You Lock" to prevent heatstroke deaths. Sadly, from 1998-2020, a total of 882 children died due to vehicular heatstroke with 24 children dying in 2020. The most common circumstance behind these tragedies is the driver simply forgot the child was in the vehicle and the second most common was the child playing in an unattended vehicle. This tragedy can happen to anyone and you can prevent it by always thinking: "Where's Baby? Look Before You Lock." The goal of the Heatstroke Prevention campaign is to remind parents and caregivers to always check for their children in the back seat and keep vehicles locked at all times and keys out of reach to prevent children from playing in cars. NHTSA has developed a Social Media Playbook for the 2021 Heatstroke Prevention Campaign. The Heatstroke - Hot Cars Kill Kids 2021 playbook can be found at [https://www.trafficsafetymarketing.gov/sites/tsm.gov/files/2021-03/2021-Heatstroke\\_HotCarsKillKids\\_Playbook\\_032321.pdf](https://www.trafficsafetymarketing.gov/sites/tsm.gov/files/2021-03/2021-Heatstroke_HotCarsKillKids_Playbook_032321.pdf).

## Policy Addendum: CPST Recertification and COVID-19

<https://live-skcert.pantheonsite.io/sites/default/files/2020-09/COVID%20Recert%20Policy%20Update%20FINAL.pdf>

In September 2020, Safe Kids Certification provided additional options to comply with the seat check and teaching hours recertification requirements for child passenger safety technicians (CPSTs) and child passenger safety technician instructors (CPSTIs). Many communities are still limiting in-person events and it may be difficult to meet these recertification requirements.

**Seat Check Requirement:** 5 instructor reviewed car seat checks (RF Only, RF Convertible, FF with Harness, BPB, and Installation with LATCH)

**New Option:** Submit one additional CEU in place of a reviewed seat check. You can submit up to 5 additional CEUs to replace the 5 reviewed car seat checks or any combination of seat checks and CEUs. If you are submitting CEUs to replace all 5 seat checks, you will need 11 different CEUs.

Certification	Recert Cycle	Completion	Recert Available	Status	Action
CPSTI	05/12/2019 - 05/11/2021	90%	01/11/2021	Open	<a href="#">View Summary</a> <a href="#">Add/Review CEUs</a> <a href="#">Online CEUs</a> <a href="#">Add/Submit Seat Checks</a> <a href="#">Seat Check Alternative CEUs</a> <a href="#">Teaching Hours Alternative</a> <a href="#">Comm Education</a>

**Entering Seat Check Alternatives**

→ Add/Submit Seat Checks  
→ Seat Check Alternative CEUs

**Logging Seat Checks Activity:** After logging into your online profile, go to the Certification Detail at the bottom of your profile and select the appropriate action.

Select the “Add/Submit Seat Checks” if you are entering a reviewed seat check and “Seat Check Alternative CEUs” if you are using a CEU to replace the seat check.

### Add/Submit Seat Checks

1: Rear-Facing Infant CSS

Date of Activity: 3/5/2019 - 4/8/2021

Lookup Instructor/Tech Proxy: Enter Last Name

Instructor SK ID:

Approve ☐ Yes

2: Rear-Facing Convertible CSS

Date of Activity: 3/5/2019 - 4/8/2021

Lookup Instructor/Tech Proxy: Enter Last Name

Instructor SK ID:

Approve ☐ Yes

### Seat Check Alternative CEUs

Please select a category from the "Activity Type" drop down list.

Activity Type:

- One CEU would be the equivalent of one seat check. Therefore, CPSTs and CPSTIs can mix and match seat checks and CEUs to total 5. For example,
- If 2 seat checks are completed, you would have to complete 3 CEUs.
- If zero seat checks have been completed, then you would complete 5 CEUs.

Start Date: 3/5/2019 - 3/30/2021

Completed On:

Title:

Hours: Minimum: 1

**CPST Instructor Teaching Hours Requirements:** 20 teaching hours

**New Option:** Submit additional Community Education hours in place of teaching hours. The number of required Community Education Hours will depend on the number of hours needed to reach the 20 hours.

# of Teaching Hours Earned	# of Remaining Teaching Hours	# of Required Community Education Hours
1 - 10	11 - 20	5
11 - 19	1 - 10	2
20 or more	0	0

Choose from the approved Community Education teaching hours found at <https://www.cpsboard.org/recertification/#1555528055666-5b57f973-234c>.

### Car Seat Manufacturer Sessions: Webinars and Quizzes

Community Education: Webinars

CPST Instructors can now submit additional Community Education hours in place of teaching hours. These may be earned by watching the approved webinars (marked with an \*) below.

- Beyond Inspections: CPS Technicians Teaching Classes (60 min)
- Child Passenger Safety Virtual Education (44 min)
- CPS Course Finalization (25 min)\*
- CPS and Head Start (60 min)
- Engaging Technicians and Parents (30 min)\*
- Identifying and Maximizing the Teachable Moments (60 min)\*

**Logging Teaching Hours Activity:** After logging into your online profile, go to the Certification Detail at the bottom of your profile and select the Teaching Hours Alternative. Enter each community education webinar separately.

Certification	Recert Cycle	Completion	Recert Available	Status	Action
CPSTI	05/12/2019 - 05/11/2021	90%	01/11/2021	Open	<a href="#">View Summary</a> <a href="#">Add/Review CEUs</a> <a href="#">Online CEUs</a> <a href="#">Add/Submit Seat Checks</a> <a href="#">Seat Check Alternative CEUs</a> <a href="#">Teaching Hours Alternative</a> <a href="#">Comm Education</a>

Policy Addendum: CPST Recertification and COVID-19: <https://live-skcert.pantheonsite.io/sites/default/files/2020-09/COVID%20Recert%20Policy%20Update%20FINAL.pdf>

FAQs: [https://live-skcert.pantheonsite.io/sites/default/files/2020-09/2020-9-14%20Recert%20Support\\_FAQs.pdf](https://live-skcert.pantheonsite.io/sites/default/files/2020-09/2020-9-14%20Recert%20Support_FAQs.pdf)

### Car Seat Manufacturer Sessions: Webinars and Quizzes

Community Education: Webinars

The recorded webinars below meet Community Education requirements. There is no quiz associated with an individual webinar (quizzes are only required for CEU sessions). Community Education is not audited and no proof of completion is provided. After you watch the webinar, enter it in your online profile. You can mix and match to total one hour (minimum requirement).

# 2021 LATCH Manual

Essential guide to child restraint installation (current through 2022) - \$46.00 Bulk Pricing Available

The 12th edition of the LATCH Manual provides guidance for the proper use of the LATCH system, including general advice and updated instructions from manufacturers about specific child restraints and vehicles.

The LATCH Manual has been updated and includes the following:

- Input from all major vehicle and child restraint manufacturers, including brand- and model-specific information.
- Updated vehicle listings, including the addition of recent model year vehicles, as well as clarified and expanded usage notes.
- A chapter on retrofitting older vehicles with tether anchors that includes a supplement for vehicle manufacturer part numbers, availability, and other installation and use details.

Based on experiences over the past year, Safe Ride News included details in the LATCH Manual to assist child passenger safety technicians when teaching caregivers virtually or remotely. For example, this edition includes additional information on vehicle body type, seating arrangements, and the number of doors to better visualize the vehicle scenario when education is not provided in-person. All product notes were also edited to be as clear as possible for virtual checkups.

For the 2021 edition, several manufacturers provided:

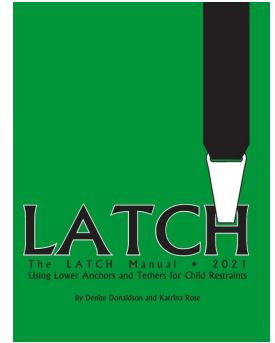

- More detail on seat back angle for installations using LATCH,
- Warnings about proper positioning of split seats, and
- Updated guidance about the use of LATCH with booster seats.

All sections of the 2021 LATCH Manual were reviewed and revised, as needed, in order to provide accurate information. This edition has new sections on:

- Aftermarket LATCH parts,
- Inspection of LATCH after a crash, and
- Proper cleaning.

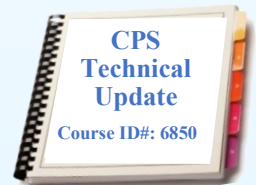

Recorded webinars on how to use the LATCH Manual that are posted on the CPS Board and Safe Ride News websites.

As a reminder, the 2019 LATCH Manual (lavender) was officially retired as of January 1<sup>st</sup>. It is recommended that child passenger safety technicians refer to the 2021 LATCH Manual (green) when working with caregivers.

## PA TIPP Child Passenger Safety Technical Update Classes: Please RSVP if Planning to Attend

- CPS Technical Update is pre-approved for 6 CPS CEUs. Contact your TIPP regional coordinator to schedule a presentation in your region and earn 6 CPS CEUs toward recertification.
- The Municipal Police Officers' Education and Training Commission (MPOETC) has approved the CPS Technical Update for 6 Continuing Law Enforcement Education (CLEE) credit hours.
- PA TIPP instructors are approved as Emergency Medical Services Continuing Education Providers. EMTs can receive 6 EMS continuing education credits for attending the 2019 edition of the PA TIPP technical update class.

Please contact TIPP if you are interested in hosting a Technical Update class for CPS technicians in your area.

# Child Passenger Safety Trainings

The **CPS Certification** course provides the training necessary to become a certified CPS technician. This four-day course establishes CPS certification for a two-year cycle. The fee is \$95.  
To register, go to [cert.safekids.org](http://cert.safekids.org).

The **CPS Renewal** course is for CPS technicians with an expired certification. The one-day course allows recertification for a two-year cycle.  
The fee is \$95.  
To register, go to [cert.safekids.org](http://cert.safekids.org).

The **TIPP CPS Technical Update** class has been pre-approved for 6 CEUs towards recertification.  
Please contact TIPP if you are interested in hosting an Update class for CPS technicians in your area.

For questions on how to create a personal profile or register for a class, please go to <https://cert.safekids.org/resources-faq/how-to>.

## PA TIPP WEBSITE UPDATED [www.pakidstravelsafe.org](http://www.pakidstravelsafe.org)

Visit the PA TIPP website to view:

- Upcoming CPS Certification, Renewal, and Technical Update classes scheduled throughout Pennsylvania.
- Community fitting stations and loan programs listed by county.
- Educational flyers/brochures and videos.
- Information on Bicycle Safety, Car Seats, Pedestrian, School Bus, Special Needs and Young Drivers.
- List of Car Seat Recalls

The PA TIPP regional outreach and training coordinators are available to support your efforts in preventing traffic related injuries. Some of the programs we offer include:

- Certification and Renewal classes,
- CPS Technical Update class: the classes can be in-person or virtual in some cases
- Medical Community: CPS presentations approved for continuing education credits (CME/CEU) through the University of Pittsburgh
- Organization/Parent presentations: traffic safety education for community groups. Presentations can be customized to meet the interest and needs of the group.
- School bus/school transportation: Programs available for schools, pre-schools, head start and organizations that transport young children.
- Special Needs Transportation
